# NALSA SAIL NUMBER

## Purchase and Installation Notes

### Purchase:

NALSA has sail numbers, U.S. and Numbers for sale. These are black, laser-cut, 10 in size, with rounded corners. Beautiful works of art and readable by the race committee. These letters and numbers will definitely allow you to sail faster and make you proud. Allegedly, you will be in the winner's circle frequently if you have these figures on your sails. So, order up an ample supply to satisfy your appetite for that beautiful fresh and fast appearance. Old worn out sail numbers will only slow you down. Order today for \$3.00 each plus \$2.00 shipping.

### Installation:

Place letters and numbers on the top 1/3 of the sail. Race committee members will be looking for them there.

Place the starboard (right side) letters and numbers above the port (left side).

### **NEVER, NEVER PLACE BOTH SIDES BACK TO BACK ON FABRIC SAILS.**

Light conditions and dust will make reading your number impossible. The exception is a solid wing, here you can place them on opposite sides of the sail at the same level if desired as they cannot be seen through the wing.

### Examples of Correct Placement:
