US SAIL NUMBER ISSUED: US _____ **DATE:** _____

NALSA SAIL NUMBER

Purchase and Installation Notes

Purchase:

NALSA has sail numbers, U.S. and Numbers for sale. These are black, laser-cut, 10 in size, with rounded corners. Beautiful works of art and readable by the race committee. These letters and numbers will definitely allow you to sail faster and make you proud. Allegedly, you will be in the winner's circle frequently if you have these figures on your sails. So, order up an ample supply to satisfy your appetite for that beautiful fresh and fast appearance. Old worn out sail numbers will only slow you down. Order today for \$3.00 each plus \$2.50 shipping per order.

Installation:

Place letters and numbers on the top 1/3 of the sail. Race committee members will be looking for them there.

Place the starboard (right side) letters and numbers above the port (left side).

NEVER, NEVER PLACE BOTH SIDES BACK TO BACK ON PLASTIC or FABRIC SAILS.

Light conditions and dust will make reading your number impossible. The exception is a solid wing, here you can place them on opposite sides of the sail at the same level if desired as they cannot be seen through the wing.

Important Note:

Sail numbers are assigned to a person, not a boat. If you buy a landsailer, the number on the sail does not automatically become yours. The owner should sign the above form and mail it to NALSA or give it to the new owner to mail.

From the NALSA Rules:

- Numbers should be 10 inch minimum,
- Bold, San Serif font (Helvetica Bold for example)
- In a color that contrasts strongly with the sail color.

Examples of Proper Number Placement: Note: US (or other country code) above the sail number is preferred for legibility reasons.
